His T.As were a big help. ,24. none ,25. Nothing. ,26. Gives extra videos of what he has taught us. and gives study guides.

14. What advice do I have for my instructor about the use of instructional time (face-to-face and/or online)?

1. reading from the book that we all have in front of us is not only a waste of time but very distracting when people are just trying to get their work done at their own speed ,2. Try find a better way to run class so people will understand. ,3. Try to take time to ask if people have questions before going from topic to topic ,4. Less reading ,5. Try to find ways to the class more engaging. It is a large computer lab and a lot of people are too far away from where the instructor stands to ask for help. There are assistants that walk pace arou room but I'd much rather get help from the actual instructor. ,6. Engage more with the students. ,7. None ,8. nothing i can think of ,9. Engaging with students is important and talk students isn't effective, especially after they have all complained that they couldn't hear you. I would suggest having a grad student teaching that isn't afraid to speak loud enough for everyone to hear them. I understand that everyone may not have English as their language, but learners must be able to understand whoever is teaching them materials. ,11. all because they're too hard ,12. I would not change any assignments; everything assigned helped me learn the material. ,13. None ,14. - ,15. None. ,16. None ,17. none ,18. None ,19. The format of the assignments. It's a lot of unnecessary reading. I took almost the same class my senior year of high school and the content was almost the exact same, this was just a lot more challenging because of the amount of work, some of the concepts no longer made sense because of having to use excel, and this is the type of class that absolutely requires a smaller, more supportive learning environment.

I'm unsure. I was one of the students who had a hard time understanding the material and fell behind. It is a strong possibility that I will need to retake the class. He taught until the very end, and I don't know if there was anything extra, he could have done. ,20. None. ,21. None ,22. keep the great work ,23. n/a

15. What did I most appreciate about how my instructor interacted with students?

1. I really appreciate the instructor providing the recorded review lectures. The lectures literally helped me pass the class, statistics is hard as is. My instructor did everything do to make it less stressful. I know my professor has a thick accent, which did make it hard for me to understand at times. I believe he may be aware which is why he may have provided the recorded lectures, I deeply appreciate it. I know I would have struggled without them. ,2. It was online instruction and not a lot of engagement because most students not really ask questions. He did ask if anyone needed clarification and tried to give people time to ask questions as needed. ,3. He didn't rush through the material and made thoroughly answer any questions we had. ,4. he gave us plenty of time to complete our work ,5. N/a ,6. Nothing stood out to me. He was a fine instructor. ,7. Professor Wang took the time to answer all questions even if they had previously been asked during the class. These often weren't questions that were directly related to the class for the day but took the time to respond. Also takes the time to review the chat. As a facilitator and trainer i know how challenging that can be. ,8. Communication ,9. Being on time for class appreciated how he would extend class to answer questions, and posted many study aids that helped me succeed. ,11. I appreciated how my instructor sent out announcements consistently for reminders and additional materials. ,12. the good mornings in the chat every day ,13. Professor Wang was fair, understanding, and communicative. Answered questions as well. ,14. communicated and explained things clearly ,15. their attentiveness and support ,16.
